COURSE DESCRIPTION
This course introduces the student to a variety of group exercise formats to enhance skill-related components of fitness. Students will use a fitness tracker and report physical activity to meet progressive, weekly activity goals. Purchase the required fitness tracker and software license at: https://cpass.wvu.edu/students/movbands.

STUDENT LEARNING OUTCOMES
By the end of this course, you will be able to:

- Establish and track a health enhancing level of daily physical activity.
- Demonstrate proper movement technique and adhere to safety precautions and attire recommendations for various types of group fitness activities.
- Calculate and apply heart rate data and target heart rate zones in relation to group fitness exercise.
- Recognize the three phases of a workout and apply them to participation in group fitness formats.
- Apply components of the FITT principle into daily exercise.

PHYSICAL ACTIVITY LEARNING OUTCOMES
Each student will be evaluated on the following forms of evaluation:

1. Health-related fitness (LO #1) 40%
   Each student will be evaluated on the total number of moves completed within class and outside of class. The moves will be tracked by the Movband fitness tracker (Goals start at 12:01 AM on the start date and end at 11:59 PM per the end date on the table below). “Moves” will be reviewed/graded by the instructor through the engage platform dashboard. Although your physical activity should include GROUP FITNESS CLASS FORMATS, all physical activity can count as moves toward meeting your goals. The Orientation (OMG Screenshot) will be an opportunity to become familiar with the band and its corresponding technology, and moves completed during for the MG1, MG2 and MG3 Screenshot assignments, will be calculated as part of the grade in this course. The move grades are each worth 25 points max, which is 40% of your final grade.

   NOTE: Movband reports are automatically visible to your instructor when you register your device, join your section’s group, and sync your device using a computer or smartphone. It is suggested to sync often to ensure your moves are being documented properly. If you do not sync your fitness tracker by the due dates for each time frame (see course schedule), the report will show your instructor that you had “0” moves for the week. Completed moves that have not been synced by the due date will not be counted. If it does not sync correctly, contact support@engagemoves.com for assistance, screenshot your device for documentation, and let your instructor know immediately.

2. Psychomotor domain assessment 20%
   Each student will be evaluated on daily physical activity. (LO #2)

3. Cognitive domain assessment 20%
   Each student will be evaluated on knowledge of class content. (LO #3)

4. Affective domain assessment 20%
   Each student will be evaluated on participation with reflective feedback. (LO#4)

TOTAL: 100%

COURSE REQUIREMENTS
Daily physical activity requires: (1) proper attire including athletic shoes, (2) Movband and associated software, and (3) smartphone with free engage app for reporting. Alternative movement trackers are NOT permitted. Students must have DAILY computer and internet access to check MIX email, access eCampus for required assignments, assessments, and updates, and to assure all movement data is accurately recorded and displayed in the online software platform. Learning materials are available at https://cpass.wvu.edu/students/movbands.
Physical activity, recorded and reported with a Movband and associated technology, is worth 40% of the grade. If you have already taken a PE course, and you still have your Movband, you can use it again in any additional PE course; however, the “token” software license, which links the Movband to the dashboard, is only good for 12 months from the date of purchase. For all details on the purchasing, pick up, set up, and grading regarding Movbands in CPASS physical education classes, visit: https://cpass.wvu.edu/students/movbands.

After you have made the purchases and physically have your device, go to https://dashboard.movable.com/shop/customers/WVU to make sure you have registered your Movband and are included in the class group. Contact your course instructor for assistance if needed.

IMPORTANT DATES FOR MAYMESTER 2022
https://registrar.wvu.edu/calendars/add-and-drop-dates

May 09, 2022: First day of class
May 11, 2022: Last day to add/drop
May 20, 2022: Last day to drop with a "W"
May 27, 2022: Last day of class

INSTRUCTOR EXPECTATIONS
In addition to following Course Policies (listed below), it is expected that students will:
- actively participate in weekly online discussions and coursework,
- submit all assignments on time,
- be courteous and professional always, and promptly communicate with instructor as needed,
- know that their contribution to the class is valued and expected.

Detailed instructions for each graded item are found within e-Campus.
MODULE 1 LEARNING OBJECTIVES
By the end of this module, you will be able to:
1. Identify important elements of the PE-125 course structure, policies, learning activities, and grading/assessments.
2. Assess readiness for physical activity by completing the PARQ+ questionnaire.
3. Evaluate your exercise history and attitude.
4. Acquire and use the Movband and associated technology to sync movement data to the software platform.

MODULE 2 LEARNING OBJECTIVES
By the end of this module, you will be able to:
1. Define the components of fitness as understand their relationship with group fitness activities.
2. Learn how to select proper attire and footwear for a variety of group fitness classes.
3. Know appropriate safety precautions for group fitness activities.
4. Implement various methods to assess exercise intensity during exercise.
5. Calculate Maximum Heart Rate (MHR) and Target Heart Rate Zones (THRZ) for group fitness activities.
6. Properly utilize the Movband and associated technology to track and report daily movement and heart rate intensity during group fitness exercise.

MODULE 3 LEARNING OBJECTIVES
By the end of this module, you will be able to:
1. Identify the three phases of a group fitness workout and explain the pros and cons of group fitness training.
2. Identify the skill-related components of fitness and their relationship with group fitness activities.
3. Explain the types of cues and learning styles commonly used in group fitness classes.
4. Demonstrate an exercise you would perform during a group fitness workout.
5. Properly utilize the Movband and associated technology to track and report daily movement and heart rate intensity during group fitness exercise.

MODULE 4 LEARNING OBJECTIVES
By the end of this module, you will be able to:
1. Locate and discuss a virtual cardiovascular endurance workout and identify skill-related components included in the workout.
2. Identify muscle groups targeted during recorded training sessions.
3. Demonstrate proper exercise technique used during a cardiorespiratory conditioning group fitness workout.
4. Properly utilize the Movband and associated technology to track and report daily movement and heart rate intensity during group fitness exercise.

MODULE 5 LEARNING OBJECTIVES
By the end of this module, you will be able to:
1. Demonstrate a muscle conditioning movement designed to enhance muscular strength.
2. Identify and discuss muscle conditioning exercises and equipment used during group fitness to improve muscular strength.
3. Properly utilize the Movband and associated technology to track and report daily movement and heart rate intensity during group fitness exercise.

MODULE 6 LEARNING OBJECTIVES
By the end of this module, you will be able to:
1. Perform, describe, and evaluate dynamic stretches performed in a group fitness class to promote increased flexibility.
2. Evaluate fitness tracking technology.
3. Describe how FITT and intensity assessments are utilized during physical activity.
4. Properly utilize the Movband and associated technology to track and report daily movement and heart rate intensity during group fitness exercise.
COURSE POLICIES

Communication: Contacting the instructor: It is your responsibility to check your email and/or eCampus about announcements or matters related with this course at least once per day. If you need to communicate with me directly, send me an e-mail to the instructor. If a phone call is more convenient, please email me and we can set up an appointment time to talk on the phone or set up a zoom meeting. I will make my best effort to answer you within 18 hours.

Online Course Attendance: This course will be conducted entirely online. There will be no set class meeting times, but you will be required to complete assignments with specific due dates. It is your responsibility to complete the work on time, which may require you to complete the work early (as the course materials are available) if you plan to travel or participate in national holidays, religious observances, or University-approved activities. If you need to request an exception due to a personal or medical emergency, contact the instructor directly as soon as you are able. The instructor’s ability to accommodate you is dependent on the earliest possible notification. Such requests will be considered on a case-by-case basis.

Class Civility: When communicating online, it can be easy to overlook the fact that you’re talking with and about other human beings in a public forum. Though I hope and expect that we will have spirited discussion and debate in this course, personal attacks of any kind will not be tolerated. Exactly what constitutes a personal attack is left solely up to the discretion of the instructor. Students who engage in personal attacks will be subject to one of two courses of action: 1) a score of zero for the week’s discussion for the first offense; and 2) a letter grade of "F" and/or dismissal from the class for the second offense. If you have an issue with a classmate, please contact the instructor rather than confronting the student directly.

WVU is committed to providing students, faculty, staff and job applicants with a work and educational environment free from all forms of harassment. Therefore, harassment, in any manner or form, is expressly prohibited. Visit https://studentconduct.wvu.edu/campus-student-code#heading-number--6 for more information.

Coursework/Grades: Submit all work by the due dates. You may complete most coursework in advance, but late work will not be accepted. Students are responsible for assuring ALL points awarded are correct and should notify the instructor immediately if a grade is in question.

Institutional Policies: Students are responsible for reviewing all policies including those regarding covid 19, inclusivity, academic integrity, incompletes, sale of course materials, sexual misconduct, adverse weather, as well as student evaluation of instruction, days of special concern/religious holiday statements, and any new policies as announced.

Movband and associated technology malfunctions: It is YOUR responsibility to contact support@engagemoves.com for assistance and troubleshooting immediately. An unreported malfunctioning fitness tracker is not an excuse for missing activity. Copy your instructor on all email communications with the software company.

IT Support: For all matters, the first point of contact is the ITS Service Desk. Please visit it.wvu.edu/help, call (304) 293-4444 or email ITSHelp@mail.wvu.edu to create a ticket for your problem.
Please note that the specifics of this Course Syllabus can be changed at any time, and you will be responsible for abiding by any such changes. All changes will be communicated with you via e-mail, course announcement and/or course discussion forum.

**ELECTRONIC SIGNATURE REQUIREMENT IN MODULE 1 QUIZ**

WVU is committed to the highest standards of academic integrity. In accord with University guidelines, we will take vigorous action against students who engage in cheating, plagiarism, forgery, misrepresentation, fraud, or other dishonest practices. Guilty students will receive an F in the course and an Academic Dishonesty Form sent to the dean, chair, and Office of Student Conduct and a copy placed in the student academic file, and possible expulsion from the University.

"I have read this PE 125 syllabus, understand its implications (and have sought clarification for those parts that were unclear to me), and will abide by it."

Signature ___________________________ Date ______________

Any necessary syllabus changes/updates will be posted in eCampus.
